BABA FARID GROUP OF INSTITUTIONS

Baba Farid College is one of the pioneer institutes of Malwa region which has emerged as a leading institution of North India. The college is well known for its outstanding achievements with special emphasis is laid on research and innovation in the academic curriculum. We aim at an all-round development and grooming of our students so as to enable them to face the challenges of modern globalized markets. BFGI always strives to promote research in all the emerging areas of Engineering, Agricultural Sciences, Humanities, Basic Sciences, etc. and is committed to promote research activities to address global challenges and well-being of the society. To build on these aims, BFGI has exclusively established the Department of Research & Innovation to promote quality research and research infrastructure.

We believe in treading our own path to success and our achievements over the last few years from its establishment in 2005, stand witness to this fact. In very short time, BFGI has organised more that 15 International and national conferences sponsored by Department of Science and Technology (DST), AICTE, Council of Scientific and Industrial Research (CSIR), NBHM, Ministry of Food Processing Industries etc. The faculty is actively engaged in cutting edge research in the frontier areas. The college is managed by Baba Farid Vidayak Society which was founded in 1993 under the visionary patronage of prominent educationists. The society aims at developing Baba Farid College as one of the model educational institutes of India.

JUST AGRICULTURE

The India's Most Rising Agriculture Magazine with more than 1.5+ Lakh readers in India. The magazine's first issue was released in Sep, 2020 with an objective of Bridging the Knowledge Gap between Farmers and Scientists & Transformed youths transforming farming. The Magazine is providing a platform to all the researchers, students, scholars, and scientists to share their ideas about latest innovative topics. This would help in disseminating scientific information and latest findings among the scientific community related to agriculture all over the world. As, through the platform of our magazine the objective is to reach maximum early-stage innovators & entrepreneurs to transform the future of agriculture. As, huge readers across India with the objective to capture the bright and innovative ideas, solutions to the field level problems and innovative research in Agriculture Sector are connected through our magazine and newsletter.
